MOBILE APP DEVELOPMENT

Synergy Interface Limited is a talented Mobile app development company known for building high performance and scalable mobile apps. We have skilled and experienced resources to build your business related apps.

We provide efficient support and maintenance after deployment. We have multiple apps published on different online markets. We also have developed multiple apps for the ICT ministry and many reputed organizations in Bangladesh. Currently, Some of Our Apps are being used by **Smart Technologies Limited, Salextra Limited, Bdlist24, Modern Herbal, Meghna Life Insurance, Forest Department Bangladesh** and many other renowned organizations.

SOFTWARE DEVELOPMENT

CUSTOM DEVELOPMENT

At Synergy Interface Limited, we don't just create custom software; we build solutions for your business problems.

SOFTWARE PRODUCT DEVELOPMENT

A successful commercial product must meet diverse user needs and is different from typical software projects.

UX DESIGN & PROTOTYPING

Our UX design and prototyping experts will make sure the resulting UI is highly usable across various devices and platforms.

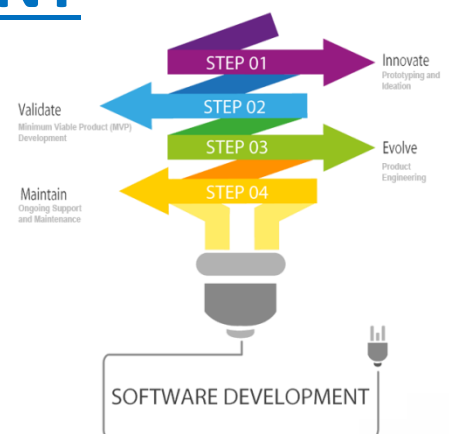

ENTERPRISE APPLICATION INTEGRATION

Seamless integration of disparate software systems can be challenging.

By using our services to improve real-time information access, streamline business processes, and facilitate system maintenance.

We have provided Solutions & Software for many Government Organizations.

Currently, Our ERP solution is being used by **Meghna life insurance, Vehicle Solution, Krishibid Group, Dream Land Courier** and many other renowned organizations.

WEBSITE DESIGN & DEVELOPMENT

Our company is at the Forefront of website design and development in Bangladesh and we are continually seeking out new ways to refine our digital services. One such way that we can amplify your brand's impact is by designing your site to be mobile responsive. This means that any user engaging with your brand via a mobile device will be presented with a tailored design that is usable and can be navigated efficiently. We have helped many companies around the world to build their desired website.

Edokan

Now, anyone may create their own e-commerce website on eDokan at any moment without any coding knowledge. It is a simple-to-use SaaS platform with a monthly subscription model that integrates all the functions of an e-commerce site, including a messenger, card and bKash payment gateway, online delivery systems, marketing systems, and an SMS gateway. Through this platform, users may even convert their website into a native mobile app. Edokan can seamlessly migrate its physical business online and continue providing customer service. From a single eDokan manage panel, they can keep an eye on-site design, items, sales, campaigns, inventories, and orders. When people pick eDokan, they may easily launch, manage, and expand their businesses.

No code E-commerce Development Platform

TRAINING

There are many IT training institutes in Bangladesh that provide training on various courses. They respond to address issues related to low practical skills by providing professional and job-oriented training courses. But the question still remains. Can training institutes raise the students' levels by providing a few weeks of training under the guidance of experts?

Thus along with the industry compliant syllabus, our teaching methodology makes computer training more effective.

Unlike other computer institutes, **Synergy Interface Limited** does not only focus on job oriented training.

Our syllabus is designed by professionals who are both in the academic field as well as in the development sector. Training is never self-sufficient for students who need extra guidance. Hence, we have started training programs where students are associated with real-time problem-solving capabilities. Our computer training programs which are totally based on a practical approach will enable students to apply their theoretical knowledge in solving practical problems. The training methodologies applied at our computer institute are devised after a long experience in this area.

Our Main Trainings:

1. Web Design and Development
2. Graphics Design
3. Microcontroller
4. Hardware and Networking
5. Six Sigma
6. Basic computer training

And many more....

BULK SMS

Use alerts to inform people about important events or situations. These alerts can be automated and triggered by specific events. Use SMS to make, confirm or change restaurant, hotel or other service reservations or bookings.

Use SMS messages to promote your competition and actively invite entries using two-way messaging.

Use SMS reminders to remind people about appointments, events, payments and any relevant information.

WEB HOSTING

Our reseller hosting services are 100% white label; this means you will be able to brand your control panel with your logo and use private name servers. We use the best when it comes to our network and hardware including the latest generation Intel processors, enterprise memory and SSD-powered local RAID-10 storage arrays. We offer our customers 99.9% uptime.

GLOBAL RECOGNITION

We are **ISO: 9001** Certified. Currently, we provide products and services that meet customer and regulatory requirements. Our Quality Management System comprises all of our ongoing software services and developments. In other words, whatever we do at Synergy Interface Ltd is within the scope of our certified management system.

We are certain that, besides the advantages brought to the organization by the management system, this also enables us to establish an improved market.
